- Have a project idea but not sure who would be the best partner;
- Have a partner in mind (community organization, small business, nonprofit) but not sure about a project;
- Have heard service-learning is a high impact practice that helps students learn and retain information, but not sure how to get started?

Service-Learning Course Designation

If you are teaching a course with a community-engaged project, please apply to have the course designated as Service-Learning:

- The process assures best practices for service-learning;
- Students can identify which courses include a community project;
- You *won't need to report* this in the Community Engagement Database

UNI is a Carnegie Classified Institution for Community Engagement and to uphold this classification we must demonstrate course based service-learning (we are preparing for re-classification).

Applications are accepted on a rolling basis, however if you want your course designated for fall 2023, apply soon. [Click here to apply.](#)
