Carnegie (re)Classification

UNI is reapplying for Carnegie Classification for Community Engagement. UNI was classified in 2006 (at the inception of this classification) and reclassified in 2016. A president-appointed committee is working on collecting data and information for this current academic year (2023-2024) for the application. As such our newsletter throughout this year will highlight data and information needed for a thorough and accurate representation of community engagement activities.

Service-Learning Course Designation
